

Technology-Enhanced Pharmaceutical Discovery (TEPD)

SEMINAR SERIES 2025/2026

Monday September 8th , 2025
12:15p.m.

SPEAKERS

Mike Che, PhD., York University

“Development of a Novel Lateral Flow Immunoassay (LFIA) Architecture for machine learning Applications and Incorporating Electrophoresis-Enhanced into fusion antibody-based COVID-19 LFIA for Signal Amplification”

Quan Le, PhD., York University

“Determination of Absolute Injection Volume in Capillary Electrophoresis by the “Capillary–Volume–Plateau Calibration (CVPC)”
