Student Biography

Maryam Jabbarpoor, PhD., York University

Maryam Jabbarpoor obtained her B.Sc. from Shahid Beheshti University, Iran, where she developed a strong interest in organic and inorganic chemistry. She then pursued her M.Sc. under the supervision of Dr. Nasser Safari, working on the development of heterogeneous catalysts. Maryam began her Ph.D. in 2022 at York University in the Le Group, where her research centers on the development of alternative strategies for the synthesis of amide-containing compounds from fluorinated precursors.
